

S**Sixtifi WFM**

COMPLETE MODULE SPECIFICATION

Sixtifi Helpdesk

Enterprise Workforce Helpdesk UI/UX Design System, Multi-Role Workflows, SLA Engine, Category Routing & Analytical Reporting.

1. Executive Overview & Purpose

The **Sixtifi Helpdesk** is the central workforce management workspace designed for employees, support agents, HR managers, and system administrators. It handles internal workforce requests across Attendance, Leave, Payroll, HR, IT, and Administration with enterprise-grade UX standards.

Page**

SLA COMPLIANCE

94% Target

USER ROLES

5 Roles

Core Routing Directive: All Helpdesk ticket details, team management forms, and category detail views open exclusively as dedicated full-page routes inside the Sixtifi application shell (`/helpdesk/tickets/:ticketId`). Drawers, modals, popups, and side panels are strictly prohibited for viewing tickets.

2. Complete Screen Catalog (11 Full-Page Modules)

#	SCREEN NAME	ROUTE CONCEPT	TARGET ROLE	KEY PURPOSE & FEATURES
1	Helpdesk Dashboard	<code>`/helpdesk/dashboard`</code>	All Users / Agents	Central operational dashboard featuring summary KPIs, 30-day ticket volume trends, urgent attention feed, category breakdown, and quick actions.
2	My Requests	<code>`/helpdesk/my-requests`</code>	Employee	Employee self-service tracking workspace displaying personal request summary metrics, search & filter toolbar, and full-page ticket navigation.
3	Raise Request	<code>`/helpdesk/requests/new`</code>	Employee	Dedicated full-page request submission form with category cards, inline validation error hints, file uploader (10MB limit), and subcategory options.
4	Ticket Detail Workspace	<code>`/helpdesk/tickets/:ticketId`</code>	Employee / Agent / Admin	Full-page 2-column workspace featuring vertical conversation timeline, public vs internal agent notes, SLA progress bar, attachments, activity audit log, and role action controls.
5	All Tickets	<code>`/helpdesk/tickets`</code>	Agent / HR / Lead	Operational management queue with 7 KPI summary cards, 7 queue tabs, multi-filter toolbar, active removable filter chips, bulk actions bar, and inline assignment modal.
6	My Assigned Tickets	<code>`/helpdesk/assigned-tickets`</code>	Support Agent / Lead	Agent-focused workload workspace with 5 KPI cards (Assigned to Me, Due Today, SLA At Risk, High Priority, Waiting for Employee), SLA urgency sorting, Recently Assigned panel, and full-page ticket links.
7	Helpdesk Teams	<code>`/helpdesk/teams`</code>	Helpdesk Admin / HR Lead	Configuration queue for support teams (HR Support, Payroll Support, IT Support, Administration Support), full-page Team Lead form, Team Detail workspace with tabs, and member stacks.
8	Helpdesk Categories	<code>`/helpdesk/categories`</code>	Helpdesk Admin / HR Lead	Category configuration module (Attendance, Leave, Payroll, HR, IT, Administration), subcategory builder table, full-page Category Detail workspace, and Configured Automation Pipeline diagram.

#	SCREEN NAME	ROUTE CONCEPT	TARGET ROLE	KEY PURPOSE & FEATURES
9	SLA & Escalation	`/helpdesk/sla`	Helpdesk Admin / Lead	SLA policy management module with 4 priority targets (Urgent 1h/4h, High 4h/1d, Medium 8h/2d, Low 1d/3d), working calendar, warning threshold diagram (80%), and 3-level escalation matrix.
10	Reports & Analytics	`/helpdesk/reports`	Admin / Lead / Manager	Operational management dashboard featuring Executive Summary KPIs, dual-curve request volume trend chart, category breakdown, resolution performance bottleneck callout, team workload table, and top request types.
11	Helpdesk Settings	`/helpdesk/settings`	System Admin	Administrative configuration workspace with 4 tabs: General Settings, Email & Notification Rules, SLA & Routing Defaults, and Role Access Permission Matrix.

3. Ticket Lifecycle & SLA Urgency Rules

Ticket Status Transitions

Every workforce request follows a standardized lifecycle transition model:

STATUS BADGE	VISUAL COLOR	MEANING & WORKFLOW STATE
Open	Purple (`#6366F1`)	Request logged by employee, awaiting team or agent assignment.
Assigned	Blue (`#3B82F6`)	Assigned to specific support agent in the responsible department team.
In Progress	Dark Blue (`#1D4ED8`)	Agent actively working on investigating or resolving the request.
Waiting for Employee	Amber (`#D97706`)	Support agent requested clarification or document submission from employee. Renders "Action Required" alert banner for employee.
Resolved	Green (`#10B981`)	Agent completed resolution. Employee can reopen within 14 days if needed.
Closed	Slate Green (`#047857`)	Final status after auto-close window (7 days) or manual agent close out.
Reopened	Orange Amber (`#F59E0B`)	Employee reopened request due to unfulfilled resolution or recurring issue.

SLA Priority Target Matrix

PRIORITY TIER	BADGE STYLING	RESPONSE SLA TARGET	RESOLUTION SLA TARGET	WARNING THRESHOLD
Urgent	Urgent	1 Working Hour	4 Working Hours	80% (3h 12m)
High	High	4 Working Hours	1 Working Day (8h)	80% (6h 24m)
Medium	Medium	8 Working Hours	2 Working Days (16h)	80% (12h 48m)
Low	Low	1 Working Day (8h)	3 Working Days (24h)	80% (19h 12m)

4. Role Access Permission Matrix

CAPABILITY / FUNCTION	EMPLOYEE	SUPPORT AGENT	TEAM LEAD	HR / ADMIN	SYSTEM ADMIN
Raise Workforce Request	Yes	Yes	Yes	Yes	Yes
View Personal Requests	Yes	Yes	Yes	Yes	Yes
Work Assigned Workload Queue	No	Yes	Yes	Yes	Yes
